PROFILE

I'm a skilled developer proficient in Node.js, Express.js, JavaScript, SQL, PHP, Codeigniter, and REST API for robust backend solutions. Additionally, my expertise extends to crafting seamless user experiences using HTML, CSS, and JQuery. With a proven track record, I bring a versatile skill set that can significantly enhance a company's development initiatives and contribute to its technological advancement.

EDUCATION

Bachelor Of Technology

IEC College Of Engineering And Technology
Percentage: 82.2%

08/2017 – 08/2021
Greater Noida, India

10+2, Maths And Science

Kendriya Vidyalaya No.3,
Percentage: 70.5%

04/2015 – 03/2016
Jhansi, India

10th, Maths And Science

Army Public School Cantt
Percentage: 72.2%

04/2013 – 03/2014
Jhansi, India

COURSES

Backend Engineering

Airtribe

10/2023 – 04/2024

In this Backend Engineering course, I have upskilled and learned new skills with practical implementation, such as NodeJS, ExpressJS, MongoDB, SQL, Mongoose, Docker, REST API, Nginx, and Redis.

PROFESSIONAL EXPERIENCE

Web Developer - Intern

Croblaze India

02/2020 – 09/2020
Greater Noida, India

- To design front-end webpages for a website using HTML-5, CSS-3, and Bootstrap.

Software Developer

Cedcoss Technologies

06/2021 – 10/2023
Lucknow, India

- Frontend Development: Utilized HTML, CSS, and JavaScript to design and implement user interfaces.
- Backend Development: Built robust backend systems using Codeigniter 3, PHP, NodeJS, ExpressJS and MySQL for data processing and manipulation. Handled server-side logic to support various features and functionalities.
- Database Management: Maintained the database schema for efficient data storage and retrieval. Optimize database queries and indexes to enhance application performance.
- Collaborative Teamwork: Worked closely with clients, designers, product managers and other developers to understand projects.

ORGANIZATIONAL PROJECTS

Developing Belgium based Fooddesk Company Website.

Fooddesk is the largest provider of allergen data and digital recipe software to healthcare food professionals. I had implemented new features and optimised their existing code using HTML, CSS, NodeJS, ExpressJS, JavaScript, JQuery, MySQL, PHP and Codeigniter.

09/2021 – 10/2023
Lucknow, India

PROJECTS

| | |
|--|-------------------|
| Amazon-S3 Simple Cloud Storage  | 03/2024 – 04/2024 |
| This project is a RESTful API using Node.js, Express.js, and MySQL for a cloud storage service that allows users to upload, manage, and share files and directories. It provides various endpoints for handling file and directory operations, user authentication, and permission management. | |
| Real-Time Chat Application  | 12/2023 – 01/2024 |
| A real-time chat application using Node.js, Express.js, and Socket.IO that allowed multiple users to join chat rooms and communicate with each other. | |
| News Aggregator API  | 11/2023 – 11/2023 |
| Created a RESTful API using Node.js, and Express.js. Implemented user registration and login using bcrypt and JWT for password hashing and token-based authentication. | |
| Task Manager API  | 10/2023 – 10/2023 |
| Created a RESTful API using Node.js, Express.js, MongoDB and NPM packages. The API will allow users to perform CRUD operations (Create, Read, Update, and Delete) on tasks and the API was tested using Postman and CURL. | |
